PROFILO AZIENDALE

Green Power Systems srl, già punto di riferimento internazionale nella produzione e commercializzazione di gruppi elettrogeni, ha deciso di mettere le sue competenze e capacità produttive a servizio del settore delle energie rinnovabili creando un ramo aziendale denominato **Green Power Solar**. Mission di questo ramo aziendale sarà proporre sul mercato internazionale soluzioni avanzate e prodotti di generazione di produzione di energia solare con sistemi ibridi, sistemi di accumulo ed equipaggiamenti fotovoltaici per pompaggio, irrigazione e trattamento acque.

CORPORATE IDENTITY

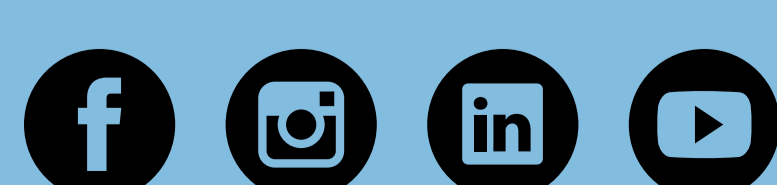

Green Power Systems srl, already an international benchmark in the production and marketing of generating sets, has decided to put its skills and production capabilities at the service of the renewable energy sector by creating a company branch called **Green Power Solar**. The mission of this company branch will be to offer the international market advanced solutions and products for solar power generation with hybrid systems, storage systems and photovoltaic equipment for pumping, irrigation and water treatment.
